

National Context (SEDA 6.0): White vs. Black and White vs. Hispanic ELA Means
Geographic School Districts — Cohort Scale (Not Forward Exam Proficiency)

Note: Stanford Education Data Archive (SEDA) 6.0, geographic district file (pooled grades/years). Each point is one district with ≥ 30 tested students per group (tot_asmts_ria). Vertical/horizontal axes are empirical-Bayes ELA estimates in cohort-scale units (national reference), not percentage proficient. Dashed line = parity. MMSD/Milwaukee labels apply only to Wisconsin districts whose SEDA names contain “Madison Metropolitan” or “Milwaukee.” Cite: Reardon et al., SEDA 6.0, <https://edopportunity.org/>.
